

# Panda Global Protection 2012

## All-In-One Protection

Enjoy total security and ensure information integrity with Panda Global Protection 2012.

Keep your inbox spam-free and surf the Web privately and securely with the new Panda Safe Browser.

Your children will navigate safely on the Internet with the improved Parental Control, while the Panda Secure Vault will allow you to encrypt private folders and files or eliminate them forever.

Protect yourself from all kinds of online threats: virus, hackers, online fraud, identity theft and all other known and unknown malware.

### Maximum Protection

The Panda Cloud Technology offers a new protection model based on a user community where everyone contributes. Your computer will always be updated and protected. Additionally, your PC won't limit detection capabilities as Panda's huge virus detection database is located on the Internet (Cloud).

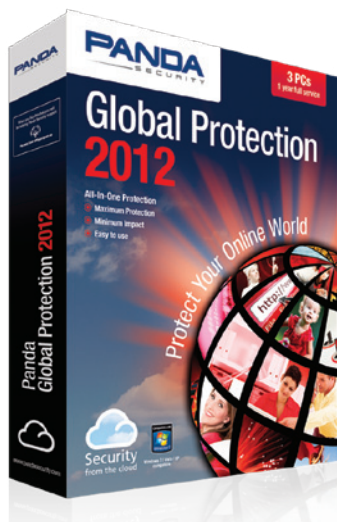

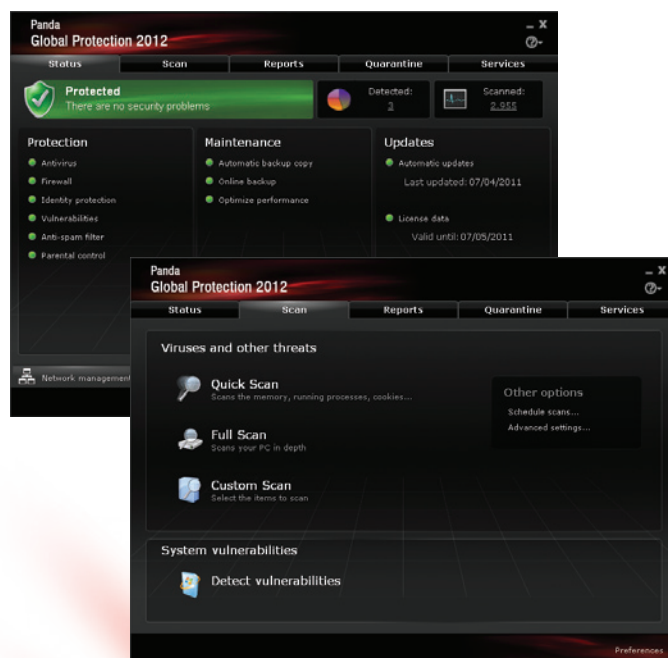

### Minimum Impact

Panda Global Protection 2012 dramatically reduces resource consumption as the malware database is in the cloud, not on your PC. Also, its lightweight protection minimizes performance impact.

### Easy to use

Its intuitive interface is perfect for all types of users. Access all the information that you need with just one click.

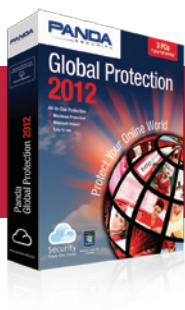

Other Antivirus Products	Panda Cloud Technology
✗ Periodic updates, incomplete protection.	✓ Always updated, always <b>PROTECTED</b> .
✗ The antivirus slows down your PC.	✓ Light protection, <b>MINIMUM IMPACT</b> .
✗ Limited detection capacity.	✓ Detection capacity <b>NOT LIMITED</b> by your PC.
