

Panda Global Protection 2013

Maximum security for your PC

This antivirus is not for your computer.
It's for you

Want to enjoy total security? Panda Global Protection 2013 has everything you need to protect your PC, your data and your family against all kinds of threats.

- Enjoy your online world with **complete peace of mind**.
- Your children will navigate **safely** on the Internet with the Parental Control.
- Use and manage additional security tools **centrally**, making your life easier.
- Forget about **identity theft** and protect your personal data.
- New **password manager**: Store passwords and other online data safely.

Advanced antivirus protection = Blocks everything

Immediate protection against all types of known and unknown threats thanks to Panda's Cloud technologies.

Backup = Prevent accidental loss

Safeguard and restore your most important files and prevent accidental data loss. Access your data from anywhere through the 2GB online backup.

Password manager = Forget about having to memorize all of your passwords

The new password manager will allow you to store passwords, credit card numbers and other sensitive information securely. You only have to remember one single master password to access your passwords, software keys and personal details.

Parental control = Safeguard children's online safety

Let your children surf through the Internet avoiding inappropriate content. Protect your children's innocence online.

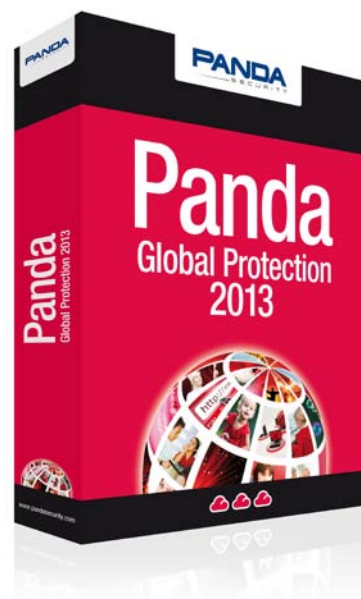

Identity protection = Keep your personal information secure

Confidential information filter that secures your personal information.

Optimization = Speed up your PC

Improve your PC performance with the Tune-Up utilities.

Main features:

- Antivirus & Firewall
- Panda USB vaccine
- Anti-Spam & Parental control
- Plus! Safe browser (sandboxing)
- Identity protection
- PC optimization & backup
