

This antivirus is not for your computer.  
*It's for you*

# Panda Internet Security 2013

Protect your  
family and your  
identity

Want protection for yourself and your family on the Internet? Panda Internet Security 2013 provides you with the most advanced protection against Internet threats.

- Lets you use the Internet for everything, like shopping and banking online, **with total peace of mind.**
- Keeps your inbox **spam-free**, and allows you to surf the Web privately and securely.
- Your children will navigate **safely** on the Internet with the **Parental control.**
- Forget about identity theft and **protect** your personal data.

#### Collective intelligence = Intelligent scanning

A new threat is identified and in a matter of seconds all of Panda Security's customers worldwide are protected.

#### Backup = Prevent accidental loss

Backup & Restore: Safeguard and restore your most important files and prevent accidental data loss. Online Backup: Access your data from anywhere through the 2GB online backup.

#### Advanced antivirus protection = Blocks everything

Immediate protection against all types of known and unknown threats thanks to Panda's Cloud technologies.

#### Personal firewall = Surefire protection

Firewall with WiFi security that blocks intruders and hackers, even in your wireless network.

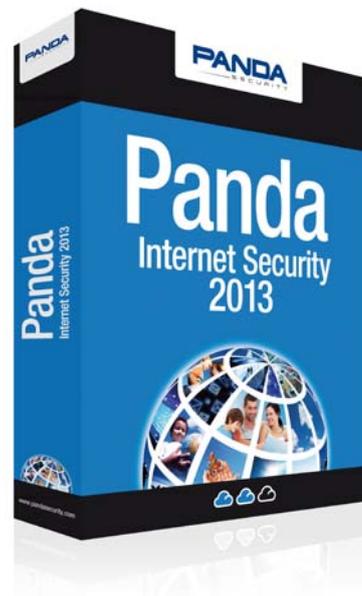

#### Parental Control = Safeguard children's online safety

Let your children surf through the Internet avoiding inappropriate content. Protect your children's innocence online.

#### Anti-spam protection = Get rid of spam

Anti-spam filter that keeps your inbox free from spam.

#### Main features:

- Antivirus & Firewall
- Panda USB vaccine
- Anti-spam & parental control
- Plus! Safe browser (sandboxing)
- Virtual keyboard
- Identity protection
- Backup
- Multimedia/gaming mode
- Home network manager
- Remote PC access
