NEW PANDA 2014 ANTIVIRUS PRODUCTS: MAXIMUM PROTECTION FOR ALL YOUR DEVICES!

Panda Mobile Security

Comprehensive protection for smartphones and tablets

Panda Security offers you an antivirus and security application for your Android™ devices.

Panda Mobile Security does not adversely affect your smartphone/tablet performance or battery life.

The application is really easy to use and offers the following features:

Key features

- ✓ **Antivirus protection:** Scans installed apps and memory card content on demand and new apps upon installation before first use.
- ✓ **Protection against download threats:** Scans your apps and app updates for threats and unwanted applications, removing them without degrading your device's performance.
- ✓ **SD card scan:** Automatically scans SD (Secure Digital) memory cards for threats.
- ✓ **Privacy auditor:** Checks and shows the access rights of installed apps.
- ✓ **Task killer:** Checks resource usage of installed apps, displaying their size, CPU usage and memory usage, and allows you to block them.

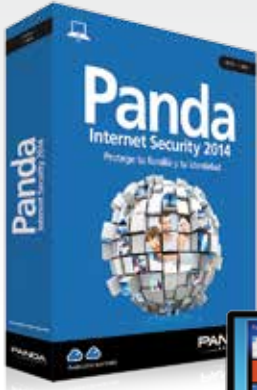

Panda Antivirus Pro 2014

Much more than a simple antivirus

Want to enjoy essential, hassle-free protection at an unbeatable price? **Panda Antivirus Pro 2014** is the solution for you.

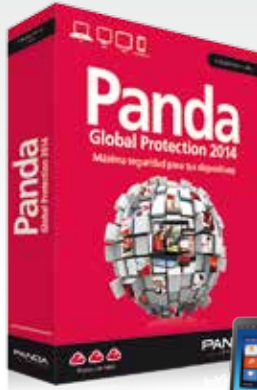

Panda Internet Security 2014
